

Corporate Procurement Opportunities

Welcome to NDB's Corporate Procurement web page, which has been designed to provide useful information to interested vendors in relation to corporate procurement.

The procurement management in NDB is guided by NDB's Corporate Procurement Policy/Guidelines, which covers procurement of services, works and goods including both hardware and software of information technology intended for NDB's own use. The Policy upholds the following six principles of good procurement as essential to facilitate efficient and economic use of NDB resources: Economy, Efficiency, Competition, Transparency, Value for Money and Fit for Purpose.

NDB prepares corporate procurement plan and discloses the high value ones on its website to enhance to achieve better procurement outcomes, and conducts procurement in an environment that promotes competition among eligible suppliers.

Administration Division is responsible for procurement of goods, works, consulting services and other services required by the Bank to fulfill its institutional requirements. If you have any questions or inquiries related to the Policy and the above mentioned plan, please send an email to corporateprocurement@ndb.int.
