"Eskom reserves the right to award to a supplier who may not be the highest scoring/ highest ranked supplier, in line with Section (2) (1) (f) of the PPPFA."

Eskom may only cancel a tender for the second time with the prior approval of the relevant treasury. Eskom must make representation to the relevant treasury stating reasons for cancellation for the second time. This cancellation(for the second time), however does not refer to price quotations in terms of threshold for procurement but tenders that have been advertised for open competitive tendering process.

The decision to cancel a tender invitation will be published in the same manner in which the original tender invitation was advertised

Prequalification may be used in identified tenders to advance designated groups on the basis of B-BBEE Status Level of contributor, EME or QSE or on the basis of subcontracting with EMEs or QSEs which are 51% owned by either of the following: Blacks; Black Youth; Black Women; Black people with disabilities; Black people living in rural or underdeveloped areas or townships; cooperatives owned by Black people; Black people who are Military Veterans.

If feasible to sub-contract for a contract above R30M, Eskom must apply sub-contracting to advance certain designated groups.

When Eskom decides to apply the sub-contracting provision as specified in Regulation 4(c) all tenders above the prescribed maximum threshold for quotations must be advertised through an open competitive bidding process subject to potential tenderers meeting the 30% minimum subcontracting requirement to EMEs or QSEs that are 51% owned by the following enterprises:

- (i) Black people
- (ii) Black people who are youth
- (iii) Black people who are women
- (iv) Black people with disabilities
- (v) Black people living in rural or underdeveloped areas or townships
- (vi) Co-operatives which are 51% owned by Black people
- (vii) Black people who are military veterans

Main contractors/ suppliers are discouraged from subcontracting with their subsidiary companies as this may be interpreted as subcontracting with themselves and / or using their subsidiaries for fronting. Where primary contractor subcontracts with a subsidiary this must be declared in tender documents.

ANNEXURE E

CPA (IG) REQUIREMENTS FOR FOREIGN GOODS AND SERVICES

CONTRACT PRICE ADJUSTMENT AND FOREX PAYMENTS - IMPORTATION

Failure to propose contract price adjustment methods, either by completing this document or proposing alternative methods for any portion of the tender price, will lead to that portion of the tender price being considered fixed.

Where space in this document is insufficient, the tenderer shall submit the required information on separate schedules, duly referenced to this document.

Where foreign exchange is involved, and Eskom will cover the risk forward, the methods of payment listed in Part 1 are the only acceptable methods. It must be noted that Eskom considers Payment **Method 1** to be the default payment method.

PART 1: PAYMENT OF FOREIGN COMMITMENTS

Payment of Eskom's foreign commitment in foreign currency will be made either:

Payment Method 1:

a) To a nominated bank account in a foreign country in a foreign currency (payment will be made to the party and account nominated by the supplier In the contract, and not to any other party);

Applicable (Y / N)

b) To a valid SARB approved CFC account in South Africa, in a foreign currency (payment will be made to the party and account nominated by the supplier in the contract, and not to any other party). Service related payments are excluded from this option;

Applicable(Y/N) or

Payment Method 2:

In South African Rand at the selling spot rate of exchange obtained by Eskom's Treasury on the date that the forward cover is cancelled. Eskom will notify the supplier of the date that the forward cover is cancelled as well as the intended payment date, which will be as per the agreed payment terms. Any exchange rate adjustment after Eskom has notified the supplier of the date and the rate which the forward cover is cancelled, will be for the account of the supplier.

Applicable (Y/N).....

An indemnity in writing confirming that the supplier will not buy forward cover is required where Payment Method 1 or 2 is contracted.

[Payment Method 2 must be accepted by the Commercial Policy and Procedure Manager before the tender documentation is sent out, but at the latest before the tender closing date. If it is not approved before tender closing, Payment Method 1 will be the default.]

Confidential

When downloaded from the document management system, this document is uncontrolled and the responsibility rests with the user to ensure it is in line with the authorised version on the system.

Eskom will require substantiating proof of importation at the time of invoicing, regardless of which payment method is selected.

Where goods were previously imported into stock by the supplier, for delivery to various customers, including Eskom, the price quoted must be in South African Rand. In such cases Eskom will not undertake any foreign exchange commitment or arrange forward cover.

Provided that the tenderer nominates either Payment Method 1 or 2 as the main tender offer, an alternative payment method offering a fixed price not subject to exchange variation may be offered for Eskom's consideration.

Where Payment Method 2 is used and the exchange rate variation is favourable to Eskom at the date of payment, Eskom will debit the difference between the invoice value and the amended value at the date of payment, based on the selling spot rate of exchange obtainable by Eskom's Treasury on the notified payment date.

PART 2: EXCHANGE RATES

The tenderer shall use the exchange rate as at the time of preparation of the tender and shall stipulate the date of the rate used in the tender.

Any request for a change of currency during contract execution, shall be substantiated by the requesting party and be mutually agreed by the parties to the contract. The requesting party shall be liable to absorb all related costs that Eskom has incurred, in relation to the affected portion, in securing the hedge, including any losses that Eskom may suffer as a result of cancellation of such forward cover;

Eskom must not be placed in a worse position than before the requested change, thus the Contractor will be paid in either:

- the rate at which the cover was cancelled, or
- The tendered rate of exchange.

PART 3: ADJUSTMENT OF IMPORTATION COSTS, ETC

The values in Rand included in the tender/contract price for the following costs shall be based on rates ruling for the month prior to the closing date of the tender and any variation in these rates applied to the value included in the tender price will be for Eskom's account.

	RATES/TARIFFS

The source of indices/prices/rates nominated in this part shall be from a recognised publishing authority. It must be clearly and completely defined. Supplier in-house indices are not acceptable.

The value of overseas manufacture, labour and material costs (ex-works), inland transportation, expatriate labour, etc. included in the tender/contract price shall be subject to adjustment in accordance with the methods stated hereunder.

The base indices/prices/rates shall be those ruling for the month prior to the month of the closing of the enquiry.

- Where portions of the works are delivered at different times, contract price adjustments shall be made in respect of appropriate portions of the contract price.
- 3 Where the terms of payment of the contract allow progress payments, other than Eskom's standard payment terms, the agreed contract price adjustment method shall be applied to the value of such payment and to the date and level of completion to which payment is linked.
- 4 Where any figure given in a table is therein stated to be a provisional figure or is subsequently amended, the figure as ultimately confirmed or amended in the publication concerned shall apply.
- Where the appropriate claim indices/prices as defined in terms of the agreed formulae, are not available or are provisional, interim claims based on the last published confirmed or revised indices/prices as at the date of delivery/installation may be submitted. When the confirmed or revised index/price becomes available the final claim may be submitted, provided that such claim is received within 180 days of the date of delivery/installation.
