

New development bank loan Hohhot new airport terminal area  
General contracting of the second bid section  
Clarification of bidding documents

IFB for construction of section II of Hohhot new airport terminal area loaned by New Development Bank released on October 14, 2021 in new system of Hohhot public resources trading supervision office.

The content of "Experience of technical director (2 points)", which stipulated in 2.2.4 (2) "scoring standard of project management organization (7 points)" of Chapter III bid evaluation method (comprehensive evaluation method) of the original bidding document stipulates: "supporting materials shall be provided as follows: the scan of certificate of completion acceptance, letter of acceptance and contract agreement (if project manager changed, the owner's certification materials with official seal of the owner shall also be provided); the time of completion acceptance certificate materials shall prevail(the bidder shall provide relevant completion acceptance certificates specified by industries and professional engineering signed by each acceptance party, including but not limited to completion acceptance report)."

Now it is corrected as follows:

"supporting materials shall be provided as follows: the scan of certificate of completion acceptance, letter of acceptance and contract agreement (if technical chief changed, the owner's certification materials with official seal of the owner shall also be provided); the time of completion acceptance certificate materials shall prevail(the bidder shall provide relevant completion acceptance certificates specified by industries and professional engineering signed by each acceptance party, including but not limited to completion acceptance report)."
