

Procurement Notice: Fujian Putian Pinghai Bay Offshore Wind Power Project

Country	China
Project	Fujian Putian Pinghai Bay Offshore Wind Power Project
Sector	Power
Contract	Procurement of wind turbine generator units and accessory equipment

China (the “Borrower”) has applied for funding from New Development Bank to finance the cost of Fujian Putian Pinghai Bay Offshore Wind Power Project. Part of proceeds of the financing will be used for payments towards wind turbine generator units and accessory equipment. Details of the project and the contract are as given below:

The project is situated in Pinghai Bay, city of Putian, Fujian Province. The project neighbors Daitou Peninsula on the west and Nanri Island on the north. It is about 12 km from Pinghai Town. The total installed capacity of the project will reach 250 MW. Not more than 50 sets of offshore wind turbine generator units, with an individual capacity not less than 5.0 MW, are expected to be installed.

The scope of bidding this time includes 24 sets of offshore wind turbine generator units with individual capacity not less than 5.0 MW, after the successful completion of the previous bidding of 120 MW for the same project. The total installed capacity will be 130 MW for bidding this time. It includes, but is not limited to, electric system and control system of the wind turbine generator units and accessories, towers matched to the wind turbine generator units, step-up equipment, ring-network cabinet, complete monitoring system, spare parts, exclusive tools and relevant technical service.

Fujian Zhongmin Offshore Wind Power Co., Ltd., a subsidiary of state-owned Fujian Investment and Development Group Co. Ltd., invites bids for the contract as mentioned above. Bidding documents, detailed instructions for bidding, and any addendum/corrigendum can be obtained online at www.chinabidding.com/bidDetail/230569733.html.
