

Invitation for Bid (IFB)

(Re-tendering)

Date: Aug 14,2023

Invitation for Bid No.: /

Contract No: SI-2

Bid No.: WKZB2326NXG401359

1 Yinchuan Municipal Transport Bureau has applied for a loan from the New Development Bank (herein after referred to “NDB”) to pay for Ningxia Yinchuan Integrated Green Transport Development Project, and plans to use a part of this loan to cover the eligible expenditure under the contract for the procurement and installation for Security Monitoring and Intelligent System of Transportation Yards.

2 Yinchuan Municipal Transport Bureau hereby invites eligible bidders to submit sealed bids for the following goods and relevant services:

This project relies on advanced technologies such as "video+AI+algorithm" to build an intelligent system for transportation yards. The 25 transportation yards involved in this project include 3 new stations: the initial and terminal bus station in Lufang Town, Yongning, the bus parking lot in the Convention and Exhibition Center, the parking lot in Yinchuan Economic Development Zone, 2 expansion stations: Xixia Square parking lot, Yuehai Wanjia initial and terminal bus station, 20 existing stations: the initial and terminal bus station in Jing'an Jiayuan, the bus parking lot in Railway Station, the bus parking lot at the north gate Tongda North Street Bus Yard, Yuehai Bay Central Business District Bus Hub, You'ai Central Road Initial and Terminal Station, Baohu Parking Lot, Fertilizer Plant Parking Lot, Ningjiao Base Initial and Terminal Station, Petroleum City Parking Lot, Jinfeng Science and Technology Park Initial and Terminal Station, Binhe New Area Bus Integrated Hub Station, Beita East Road Initial and Terminal Station, Yongning City Central Parking Lot, Gaoqiao Resettlement Area Bus Initial and Terminal Station, Mancheng South Street Initial and Terminal Station, Art School Parking Lot, Xixia Park Parking Lot, Wenchang South Road Bus Parking Lot, Bayi Parking Lot, etc and construction of intelligent management platforms and central machine rooms.

The transportation yard level system under construction consists of station intelligent management platform, charging pile monitoring, video monitoring, parking lot management, intrusion alarm, integrated wiring, patrol system, power supply and grounding subsystems. The station intelligent management platform shall meet the data access of other newly added station security monitoring equipment and intelligent systems. The station intelligent management system data shall be connected to the central level of the command center for unified management.

Please refer to Section VI. Schedule of Requirements for details

The delivery time for the above goods and related services is two hundred and seventy (270) days after the signing of the contract.
