This is achieved through a collaborative discussion and agreement with the designated ‘Review Committee’. Consequently, proposing a distinct 3-month plan submission before the commencement of each six-month period, along with approval from the Review Committee, might introduce an element of redundancy.</p> <p>With this in mind, we kindly request the Authority to consider the possibility of integrating the three-month plans within the framework of the Monthly Progress Report/Quarterly Progress Report.</p>	No changes. 75.		Under SECTION-6 II. MAIN OBJECTIVE OF THE CONSULTANCY SERVICES (pg – 54)	PMC will propose and submit three monthly plans for the tasks to be performed by the PMC team before start of each six months period and take approval on the same. The main focus of the services is to support RWD HQ, PMU and PIUs to effectively manage and monitor the activities.	Based on our experiences, we understand that the MPR/ QPR has the capacity to comprehensively address the way forward and the action plan for the upcoming 2-3 months. This could be achieved through collaborative discussions with the designated ‘Review Committee’. Hence, a distinct 3-month plan submission before the commencement of each six-month period, along with approval from the Review Committee, might introduce an element of redundancy.  We kindly request the Authority to consider the possibility of integrating the three-month plans within the framework of the Monthly Progress Report/Quarterly Progress Report.	No changes. As per EOI cum RFP
76.		Under SECTION-6 III. SCOPE OF SERVICES	Support PMU to establish a design review team of either inhouse or contract staff, PMC is required to review a minimum sample of 5 percent DPRs to identify the	Based on our experience, we understand that this activity could benefit from the insights of an experienced Road Design Expert. We propose that their involvement be explicitly mentioned in the Terms of Reference (TOR) and considered as a part of the financial proposal.	
77.		Under SECTION-6 III. SCOPE OF SERVICES Task 4 Physical and Financial Progress (pg – 57)	Task 4 Physical and Financial Progress: The Consultant will assist RWD in the following tasks: <ul style="list-style-type: none"> <li>• Establish Monthly and Quarterly progress targets of civil works based on work program of each contract, review actual progress against these targets, and agree and implement catch-up plans for the progress shortfall through PIUs, if found any. Additionally, it would be helpful to know whether there are other consultants fulfilling the role of the Authority's Engineer, supporting the PIU in tasks like monitoring contractor progress, validating billings on-site, and generating project-based/ overall progress reports. We understand that the PMC team's involvement would not entail direct engagement with the contractor in terms of certifying on-ground work progress, disbursement of contractor's payment and approval process. We request the Authority to clarify the same.	No changes. As per EOI cum RFP
