

Announcement for Competitive Consultation on Knowledge Generation and International Dissemination Consultancy Service for NDB Anhui Province Roads Development Project(21CN03)

Project Overview

[Potential suppliers for the Knowledge Generation and International Dissemination Consultancy Service for NDB Anhui Province Roads Development Project (21CN03)(Project No.: 26AT188037601088) should obtain the competitive consultation documents from the Antyee e-Tendering Electronic Trading System (www.xinecai.com) and submit response documents before 14:30 on March 16, 2026(Beijing Time).]

I. Basic Project Information

1. Project No.: 26AT188037601088
2. Project Name: Knowledge Generation and International Dissemination Consultancy Service for NDB Anhui Province Roads Development Project(21CN03)
3. Project Overview: Knowledge Generation and International Dissemination Consultancy Service for NDB Anhui Province Roads Development Project(21CN03). Details are specified in the competitive consultation document.
4. Procurement Method: competitive consultation
5. Budget Amount: RMB 650,000

II. Supplier Eligibility Requirements

1. The supplier must hold a valid Business License or Legal Entity Certificate for public institutions.
2. The supplier must not have any of the following adverse credit records:
 - (1) The supplier is listed as a dishonest person subject to enforcement by the China People's Court;
 - (2) The supplier, its legal representative, or the proposed project leader is listed in the bribery crime case file by the China People's Procuratorate;
 - (3) The supplier is listed in the abnormal business operations directory by the China Market Supervision and Administration Department;
 - (4) The supplier is listed in the list of parties with serious tax law violations by the China Tax Department;
 - (5) The supplier is listed in the record of serious violations of laws and dishonesty in government procurement by the China Government Procurement Regulatory Department.
3. Consortium response is not accepted for this project.

III. Obtaining Competitive Consultation Documents

1. Time for obtaining competitive consultation documents: From March 5, 2026, to 14:30 (Beijing Time), March 16, 2026
2. Place for obtaining competitive consultation documents: Antyee e-Tender Electronic Trading System (www.xinecai.com)
3. Method for obtaining competitive consultation documents: Online acquisition
 - (1) Suppliers intending to participate in this procurement project must register for free as an enterprise on the Antyee e-Tender Electronic Trading System (www.xinecai.com) and improve enterprise information for review (Registration subject must select "Procurement Supplier" and "Engineering Supplier", and upload scanned copies of the official Business License and the Basic Account Opening

Permit). Refer to the "Bidder Operating System Instructions" in the "Help Center" column on the Antyee e-Tender website (<https://www.xinecai.com/serveguide>) for specific operations. Failure to complete the registration and review process in time affecting the competitive consultation shall be the supplier's own responsibility. After completing enterprise registration and passing the review (the review period is generally three working days), suppliers can log in to the "Antyee e-Tender Electronic Trading System" via the internet, specify the project and package (lot number), pay and download the documents and related attachments (including clarifications, Q&A, and supplementary notices. The Procuring Entity/Agent will not notify separately. Suppliers should promptly follow and check the above-mentioned relevant content released on the Antyee e-Tender platform, otherwise, any consequences caused shall be borne by the supplier). For consortium response, the consortium leader shall perform the document download operation. If users need to change the initial registration information after successful registration, they should promptly apply for changes on Antyee e-Tender (Antyee e-Tender Service Hotline:+86 400-050-9988). Failure to make timely changes resulting in adverse consequences shall be the supplier's responsibility.

(2) Registered potential suppliers can log in to the Antyee e-Tender platform to obtain procurement documents. The procurement documents and other materials (including clarifications, Q&A, and related supplementary documents) for this project are published through the Antyee e-Tender platform. The Procuring Entity/Agent will not provide further written notices. Potential suppliers should promptly follow and check the Antyee e-Tender platform. Failure to check in time leading to adverse consequences shall be the supplier's own responsibility.

(3) If registered potential suppliers' registration information changes (e.g., inconsistent with the initial registration information), they should submit change applications online promptly. Failure to make timely changes leading to adverse consequences shall be the supplier's own responsibility.

(4) Electronic Response Document Production Method:

① This project adopts an online procurement method. Suppliers are requested to

download the electronic bidding document production tool from the Antyee e-Tender system. Specific operation steps and procedures can be found in the "Bidder Operating System Instructions" in the "Help Center" column on the Antyee e-Tender website (<https://www.xinecai.com/serveguide>). Carefully read the requirements in the procurement documents and relevant operation manuals. (For technical issues regarding system operation, please contact Antyee e-Tender Service Hotline: +86 400-050-9988, or +86551 63732505/+86551 63739511/+86551 63733806/+86551 63736628).

② Suppliers must use a digital certificate to sign, seal, and encrypt the response document. It is recommended to use the enterprise's primary master lock. If you have not applied for a digital certificate, please go to Anhui Electronic Certification Management Center (Centralized handling point on the 1st floor lobby, Antian Lixin Headquarters Base, No. 69 Shuxin Road, Shushan District, Hefei) or apply directly online. Contact number: +86551 63733806. Requirements for CA application are detailed in the "CA Application Requirements" section of the Antyee e-Tender system.

③ For this project, suppliers must use the latest version of the response document production tool. Please download it from the "Data Download" page of the Antyee e-Tender Electronic Trading System (<https://www.xinecai.com/serveguide>). The software will also prompt upon startup (requires an active internet connection). Suppliers need to pay attention to updates (ensure to exit antivirus software and security guards before updating to avoid update failure) to prevent errors in producing response documents. If this leads to an invalid response, the responsibility lies with the supplier.

IV. Competitive Consultation Time and Announcement Media

1. This project uses electronic bidding.

2. Response Document Submission Deadline and Competitive Consultation Time: 14:30 (Beijing Time) on March 16, 2026

Suppliers shall upload the electronic response document through the "Antyee e-Tender Electronic Trading System" (URL:<https://www.xinecai.com/>) before the

deadline.

3. The system will automatically shut down after the deadline. If the electronic response document is not fully uploaded, the response will be rejected.

This procurement announcement is published on the "Antyee e-Tender Procurement Electronic Trading Platform" (<https://www.xinecai.com/>), Anhui Provincial Bidding and Tendering Information Network (www.ahtba.org.cn), China Tendering and Bidding Public Service Platform (<http://www.cebpubservice.com/>), and other websites.
