Report on Review of Condensed Financial Statements

To the Board of Directors of the New Development Bank

Introduction

We have reviewed the accompanying condensed statement of financial position of the New Development Bank (the Bank) as at March 31, 2025 and the related condensed statement of profit or loss and other comprehensive income, condensed statement of changes in equity and condensed statement of cash flows for the three-month period then ended, and notes to the condensed financial statements.

Management of the Bank is responsible for the preparation and fair presentation of these condensed financial statements in accordance with International Accounting Standard 34 "Interim Financial Reporting" (IAS 34) issued by the International Accounting Standards Board. Our responsibility is to express a conclusion on these condensed financial statements based on our review.

Scope of Review

We conducted our review in accordance with International Standard on Review Engagements 2410 "Review of Interim Financial Information Performed by the Independent Auditor of the Entity" issued by the International Auditing and Assurance Standards Board. A review of these condensed financial statements consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the condensed financial statements are not prepared, in all material respects, in accordance with IAS 34.

Other Matter - Restriction on Distribution

Our responsibility is to report our conclusion solely to you, as a body, for the purpose in accordance with our agreed terms of engagement, and for no other purpose. Our report is not to be used for any other purposes or by any other parties. We do not assume responsibility towards or accept liabilities to any other parties for the contents of this report.

Notes to the Condensed Financial Statements
For the three months ended March 31, 2025

1. General Information

The New Development Bank (the Bank) was established on the signing of the Agreement on the New Development Bank (the Agreement) on July 15, 2014 by the Government of the Federative Republic of Brazil (Brazil), the Russian Federation (Russia), the Republic of India (India), the People's Republic of China (China) and the Republic of South Africa (South Africa), collectively known as the "BRICS" countries or founding members. The Agreement took effect on July 3, 2015 according to the notification endorsed by Brazil in its capacity as depositary. On September 16, 2021, October 4, 2021 and February 20, 2023, the People's Republic of Bangladesh (Bangladesh), the United Arab Emirates (UAE) and the Arab Republic of Egypt (Egypt), respectively, became new members of the Bank. The headquarters of the Bank is located in Shanghai, China. The Bank has established Africa Regional Center in Johannesburg, Americas Regional Office in Sao Paulo with a sub-office in Brasilia, Eurasian Regional Centre (ERC) in Moscow and Indian Regional Office (IRO) in Gujarat International Finance Tec-City.

As at March 31, 2025, the Bank had eight member countries. More details of member countries' paid-in capital are disclosed in Note 26. Additionally, the Bank's Board of Governors admitted two prospective members that will officially become member countries once they deposit their instruments of accession.

The purpose of the Bank is to mobilise resources for infrastructure and sustainable development projects within BRICS and other emerging economies and developing countries, complementing the existing efforts of multilateral and regional financial institutions, for global growth and development.

2. Basis of Preparation of Condensed Financial Statements and Accounting Policy

The condensed financial statements have been prepared in accordance with International Accounting Standard (IAS) 34 "Interim Financial Reporting". The condensed statement of profit or loss and other comprehensive income and relevant notes for the year ended December 31, 2024 are also presented for reference.

The condensed financial statements for the three months ended March 31, 2025 should be read in conjunction with the Bank's financial statements for the year ended December 31, 2024.

The accounting policies and methods of computation used in the condensed financial statements for the three months ended March 31, 2025 are the same as those presented in the Bank's financial statements for the year ended December 31, 2024.

2. Basis of Preparation of Condensed Financial Statements and Accounting Policy - continued

The application of the amendments to IFRS Accounting Standards in the current interim period has had no material impact on the Bank's financial positions and performance for the current and prior periods and/or disclosures set out in these condensed financial statements.

3. Key Sources of Estimation Uncertainty

The preparation of condensed financial statements requires the use of certain critical accounting estimates. It also requires Management to exercise its judgment in the process of applying the accounting policies of the Bank. The key sources of estimation uncertainty used in the condensed financial statements for the three months ended March 31, 2025 are the same as those followed in the preparation of the Bank's financial statements for the year ended December 31, 2024.

4. Financial Risk Management

Overview

The Bank's operating activities expose it to a variety of financial risks. As a multilateral development bank, the Bank aims to safeguard its capital base by taking prudent approaches and following international practices in identifying, measuring, monitoring and mitigating financial risks.

The Bank has established various risk management policies approved by the Board of Directors in line with its Agreement which are designed to identify and analyse risks of particular categories, and to set up appropriate risk limits and controls. The Board of Directors sets out the risk management strategy and the risk tolerance level in different risk management policies.

The primary responsibility for risk management at an operational level rests with the Management of the Bank. Management and various specialist committees are tasked with integrating the management of risk into the day-to-day activities of the Bank, by monitoring related risk parameters and tolerance through policies and procedures under the strategy approved by designated committees.

The Bank is exposed to a variety of financial risks namely: credit risk, liquidity risk and market risk which comprises exchange rate risk and interest rate risk.

Credit risk

The Bank is committed to mobilising resources for infrastructure and sustainable development projects in BRICS and other emerging market economies and developing countries. The Bank will provide financial support through loans, guarantees, equity investment and other financial activities to fulfill this purpose. Any potential inability or unwillingness of borrowers or obligors to meet their financial obligation with the Bank stands as credit risk.

4. Financial Risk Management - continued

Credit risk - continued

According to the nature of the Bank's business, the principal sources of credit risks are:

- (i) credit risk in its sovereign operations;
- (ii) credit risk in its non-sovereign operations; and
- (iii) obligors credit risk in its treasury business.

A prudential credit risk limit structure facilitates the management of risks associated to the Bank's portfolio. Credit risk concentration limits are applied to exposures to single jurisdiction, sector, obligor and product.

The Bank mainly relies on external credit rating results from major international rating agencies (e.g. Moody's, S&P Global Rating and Fitch) to provide an initial assessment of the credit quality of sovereign and non-sovereign borrowers and treasury counterparties. In case where the loans are guaranteed by the governments of the individual countries, the credit risk is assessed on the guarantor. In case a loan is not rated by any of the external credit ratings mentioned previously, the Bank uses either an alternative agency approved by the Finance Committee or an internal credit assessment taking into account specific project, borrower, sector, macro and country credit risks. The Risk Management Department of the Bank continuously monitors the overall credit risk of the Bank on a periodic basis.

ECL measurement

The Bank adopts a three-stage model for impairment based on changes in credit quality since initial recognition. The ECL calculation tool designed by Moody's is used for the three months ended March 31, 2025 and the year ended December 31, 2024.

The ECL is calculated on a 12-month basis for assets without a significant increase in credit risk since their initial recognition or on a lifetime basis for assets with a significant increase in credit risk. For financial assets that are credit-impaired, a lifetime ECL is recognised and interest revenue is calculated by applying the effective interest rate to the amortised cost rather than the gross carrying amount from the beginning of the next reporting period.

Significant increases in credit risk

In assessing whether a financial instrument has experienced a significant increase in credit risk, the Bank considers both qualitative and quantitative criteria including forward looking information available without undue cost or effort. In particular, the following information is considered in assessing whether there has been a significant increase in credit risk.

4. Financial Risk Management - continued

Credit risk - continued

Significant increases in credit risk - continued

Quantitative criteria:

- Delay in interest, principal or other contractual payment exceeding 30 days;
- Credit rating downgrade by three notches compared to the credit rating at initial recognition.

Qualitative criteria:

- History of arrears within 12 months;
- Adverse changes in business, financial or economic conditions that are expected to cause a significant change in the borrower's ability to meet its obligations;
- Material regulatory action against the borrower or counterparty that is expected to cause a significant change in the borrower's ability to meet its obligations.

Credit-impaired financial assets

A financial asset is credit-impaired when one or more events that have a material detrimental impact on the estimated future cash flows of that financial asset have occurred. The following criteria is applied in assessing credit-impaired financial asset for the Bank's portfolio.

Evidence that a financial asset is credit impaired includes observable data about the following events:

- Delay in interest, principal or other contractual payment exceeding 90 days or in the case of sovereign lending by more than 180 days;
- Any breach of contract other than payment overdue, such as covenant breach;
- Significant financial difficulty of the issuer or the borrower;
- Borrower or counterparty is no longer considered a going concern;
- Failure to pay a final judgement or court order;
- Bankruptcy, liquidation or the appointment of a receiver or any similar official.

Definition of default

For internal credit risk management, the Bank considers occurrence of an event of default when internally and externally obtained information indicates that the debtor is unlikely to discharge its obligations, including to the Bank, in full (without taking into account any collaterals held by the Bank).

4. Financial Risk Management - continued

Credit risk - continued

Definition of default - continued

The Management of the Bank considers that payment default has occurred when the financial asset is more than 90 days past due unless the Bank has reasonable and supportable information to demonstrate that a more lagging default criterion is more appropriate. For the sovereign loans, the Management of the Bank considers that the payment default occurs when it is more than 180 days past due. It aligns with the definition of payment default for sovereign exposures used by major international rating agencies and other Multilateral Development Banks.

12-month ECL measurement

Estimation of 12-month ECL is calculated using the following formula for a given scenario:

$$12m\ ECL = \sum_{t=1}^{12m} PD_t \times LGD_t \times EAD_t \times DF_t$$

- Unconditional Point-in-time Probability of Default (PIT-PD) is derived based on Moody's model considering specific rating, country and industry information for sovereign and non-sovereign exposures, due from banks, debt instruments measured at amortised cost and debt instruments at FVTOCI. It is then conditioned on three future macro-economic scenarios (baseline, optimistic and pessimistic);
- LGD for the sovereign loans is set at a range of 10% - 45% and LGD is set at 45% for non-sovereign loans with senior unsecured claims and 75% for the non-sovereign loans with subordinated claim. LGD of 45% is adopted for due from banks, debt instruments measured at amortised cost and debt instruments at FVTOCI;
- EAD for stage 1 loan includes the sum of loans disbursed, interest receivable while EAD for stage 1 loan commitment includes net projected disbursement schedule over the next 12 months which is a part of loan commitments. The EAD includes the sum of principal and interest receivable over the next 12 months for due from banks, debt instruments measured at amortised cost and debt instruments at FVTOCI; and
- Discount rate is equal to the effective interest rate.

4. Financial Risk Management - continued

Credit risk - continued

Lifetime ECL measurement

Estimation of lifetime ECL is calculated using the following formula for a given scenario:

$$Lifetime\ ECL = \sum_{t=1}^{Lifetime} PD_t \times LGD_t \times EAD_t \times DF_t$$

- The process to determine the PIT-PD term structure is the same as 12-month ECL calculation for the first 5 years and PIT-PD is assumed to revert back to the long-run PD for the remaining years;
- LGD is the same as those used for the 12-month ECL calculation;
- EAD for any given year is based on the sum of loan disbursed, interest receivable and net projected disbursement schedule over the remaining loan contract period for sovereign and non-sovereign loans and/or loan commitments. The EAD is based on the sum of principal and interest receivable throughout the remaining life for due from banks, debt instruments measured at amortised cost and debt instruments at FVTOCI;
- Discount rate is equal to the effective interest rate; and
- Lifetime of the loan is the remaining loan contract period.

Forward-looking information incorporated in ECL

Macro scenario development

- (i) Three macro scenarios: baseline, optimistic and pessimistic. Each scenario is forecasted for five years;
- (ii) Based on each member country's development and conditions, a range of forward-looking macro-economic information is considered;
- (iii) Choice of macro scenarios and probability weightings of each scenario is approved by the Management.

$$Weighted\ Average\ ECL = \sum_{Scenarios} Weight_{Scenario} \times ECL_{Scenario}$$

The baseline, optimistic and pessimistic scenarios were given weightings of 50%, 25% and 25% respectively. The estimation is based on the best representative management judgment going forward the current path of macro-economic projections is judged to have an equal chance of being worse (pessimistic scenario) or better (optimistic scenario).

5. Fair Value of Financial Assets and Liabilities

The Bank's financial instruments that are measured subsequent to initial recognition at fair value mainly included financial liabilities designated at FVTPL, derivatives, financial assets at FVTPL, and debt instruments at FVTOCI as at March 31, 2025.

The Risk Management Department of the Bank is responsible for the fair value measurement. Analysis of fair value disclosures uses a hierarchy that reflects the significant inputs used in measuring the fair value. For financial reporting purposes, fair value measurements are categorised into Level 1, 2 or 3 based on the degree to which the inputs to the fair value measurements are observable and the significance of the inputs to the fair value measurement in its entirety:

- Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that the Bank can access at the measurement date;
- Level 2 inputs are inputs, other than quoted prices included within Level 1, that are observable for the asset or liability, either directly or indirectly; and
- Level 3 inputs are unobservable inputs for the asset or liability.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The estimated fair values are based on relevant information available at the reporting date and involve judgement.

Fair value of the Bank's financial instruments that are measured at fair value on a recurring basis

The Bank is of the opinion that there is no active market related to its bonds issued and certain debt instruments at FVTOCI in view of the low trading volume and frequency.

The fair value estimates are based on the following methodologies and assumptions:

- The fair values of derivative assets and liabilities, including foreign exchange forwards, interest rate swaps and cross currency swaps are obtained from discounted cash flow models that are commonly used by market participants using observable inputs as appropriate in the market and published by reputable agencies like Bloomberg such as interest rates and foreign exchange rates.
- The fair value of the financial liabilities designated at FVTPL is measured at discounted cash flow using key observable inputs such as interest rates and foreign exchange rates.
- The fair value of money market funds is based on the net asset value provided by fund manager.
- The fair value of private equity funds is based on the shares of the net asset values of the fund, determined with reference to fair value of the underlying investments by using valuation techniques such as discounted cash flow model.
- The fair value of debt instruments at FVTOCI is based on quoted price in an active market or independent valuation services.

5. Fair Value of Financial Assets and Liabilities - continued

Fair value of the Bank's financial instruments that are measured at fair value on a recurring basis
- continued

The following table presents the valuation techniques and inputs used for the financial instrument in Level 3.

Financial instruments	Valuation technique(s) and key input(s)	Significant Unobservable input(s)	Relationship of unobservable input(s) to fair value
Private equity fund	Shares of the net asset value of the fund, determined with reference to the fair value of the underlying investments, calculated based on valuation techniques including discounted cash flow model.	Net asset value	The higher the net asset value, the higher the fair value.

<u>As at March 31, 2025</u> (unaudited)	<u>Level 1</u> USD million	<u>Level 2</u> USD million	<u>Level 3</u> USD million	<u>Total</u> USD million

Unrealised changes in fair value recognised in profit or loss	(8)	(3)
As at end of period/year	<u>121</u>	<u>123</u>

Fair value of the Bank's financial instruments that are not measured at fair value on a recurring basis (but fair value disclosures are required)

The table below shows the carrying amount and expected fair value of loans and advances and debt instruments measured at amortised cost, which is not presented on the Bank's statement of financial position at their fair values. The fair value of the debt instruments measured at amortised cost is obtained from active market quotes or independent valuation services. The fair value of loans and advances is determined in accordance with discounted cash flow method. The main parameters used in discounted cash flow method for financial instruments held by the Bank that are not measured on a recurring basis include loan interest rates, foreign exchange rates and counterparty credit spreads.

	As at March 31, 2025 (unaudited)		As at December 31, 2024 (audited)	
	Carrying <u>amount</u> USD million	Fair <u>value</u> USD million	Carrying <u>amount</u> USD million	Fair <u>value</u> USD million
Financial assets				
Debt instruments measured at amortised cost	4,230	4,214	4,091	4,047
Loans and advances	<u>19,610</u>	<u>23,089</u>	<u>19,518</u>	<u>21,238</u>

5. Fair Value of Financial Assets and Liabilities - continued

Fair value of the Bank's financial instruments that are not measured at fair value on a recurring basis (but fair value disclosures are required) - continued

<u>As at March 31, 2025</u> (unaudited)	<u>Level 1</u> USD million	<u>Level 2</u> USD million	<u>Level 3</u> USD million	<u>Total</u> USD million
Financial assets				
Debt instruments measured at amortised cost	1,260	2,443	511	4,214
Loans and advances	-	-	23,089	23,089

<u>As at December 31, 2024</u> (audited)	<u>Level 1</u> USD million	<u>Level 2</u> USD million	<u>Level 3</u> USD million	<u>Total</u> USD million
Financial assets				
Debt instruments measured at amortised cost	1,345	2,242	460	4,047
Loans and advances	-	-	21,238	21,238

Except for the above, the Bank considered that the carrying amounts of financial assets and financial liabilities measured at amortised cost in the Bank's statement of financial position, approximate their fair values.

The Bank provides other benefits, based on their eligibility and applicability, to its staff members during their employment with the Bank. These include medical insurance, life insurance, accidental death and dismemberment insurance, Staff Retirement Plan (SRP) and Post Retirement Plan (PRP).

The charge recognised for the three months ended March 31, 2025 for the SRP and PRP was USD 3 million (unaudited) (three months ended March 31, 2024: USD 2 million, unaudited) and less than USD half of a million (unaudited) (three months ended March 31, 2024: less than USD half of a million, unaudited) respectively and is included in "Other benefits". There are two retirement plans in operation. Both SRP and PRP are defined contribution schemes and are operated through trust funds. For SRP, both the Bank and staff contribute. For PRP, only the Bank contributes.

The Bank did not incur any salary expenses and other employee benefits for members of the Board of Governors and the Board of Directors except the President of the Bank for the three months ended March 31, 2025 and 2024. According to Article 11 of the Agreement, the Board of Governors shall determine the salary and terms of the service contract of the President of the Bank.

* Less than USD half of a million

ECL allowance of due from banks is measured on the basis of 12-month ECL as at March 31, 2025 and December 31, 2024.

14. Derivative Financial Assets/Liabilities

During the three months ended March 31, 2025, the Bank has entered into derivative contracts in relation to the USD denominated note and the Renminbi (RMB) bond, that were paired with swaps of which the total notional amounts are USD 1,388 million to convert the issuance proceeds into the interest rate structure sought by the Bank.

Besides, the Bank has entered into derivative contracts in connection with loans and advances and financial liabilities designated at FVTPL to convert the notional amounts into the cross currency swap structure sought by the Bank during the three months ended March 31, 2025. The Bank has mainly entered into forward contracts for debt instruments measured at amortised cost and due from banks other than cash and cash equivalents to convert the notional amounts into the currency structure sought by the Bank.

Notwithstanding the purpose for achieving an economic hedge, the Bank opted not to apply hedge accounting to any derivative contracts entered into for the three months ended March 31, 2025 and the year ended December 31, 2024.

<u>As at March 31, 2025</u> (unaudited)	<u>Notional Amount</u> USD million	<u>Fair Value Asset</u> USD million	<u>Fair Value Liability</u> USD million
Interest Rate Swap	12,997	175	111
Cross Currency Swap	4,013	80	68
Forward Contract	1,304	10	1
Total	18,314	265	180

<u>As at December 31, 2024</u> (audited)	<u>Notional Amount</u> USD million	<u>Fair Value Asset</u> USD million	<u>Fair Value Liability</u> USD million
Interest Rate Swap	11,986	165	169
Cross Currency Swap	3,192	134	41
Forward Contract	1,291	16	—*
Total	16,469	315	210

The Bank has entered into several agreements with its derivative counterparties under the Master Agreement of the International Swaps and Derivatives Association (ISDA). The Bank requires collateral in the form of cash and security against the exposures to derivative counterparties. The Bank records collateral in respect of the interest rate swaps, cross currency swaps and forward contracts based on the margin paid or received with reference to the fair value of the derivative contracts. The collateral would only be applied against amounts due in the event that some or all the corresponding derivative contracts are terminated early, including but not limited to, as a result of a default by the relevant counterparty.

15. Financial Assets at FVTPL

	As at March <u>31, 2025</u> USD million (unaudited)	As at December <u>31, 2024</u> USD million (audited)

19. Paid-in Capital Receivables

	<u>As at March 31,</u> <u>2025</u> USD million (unaudited)	<u>As at December</u> <u>31, 2024</u> USD million (audited)
Balance as at the beginning of period/year	409	460
Add:		
Paid-in capital receivables originated during the period/year (Note 2 below)	-	-
Less:		
Installment received during the period/year	<u>(57)</u>	<u>(51)</u>
Total nominal amounts of receivable at the end of the period/year (Note 1 and Note 3 below)	<u>352</u>	<u>409</u>
Less:		
Interest on paid-in capital receivables to be unwound in the future period/year (Note 2 below)	<u>(21)</u>	<u>(23)</u>
Balance as at the end of the period/year	<u>331</u>	<u>386</u>

Note 1: The Bank established the rights to receive the initial subscribed paid-in capital of Bangladesh and UAE of 1,884 shares and 1,112 shares amounted to USD 188 million and USD 111 million respectively upon the date on which their instruments of accession to the Agreement are deposited. The payment of the amount initially subscribed to the paid-in capital stock of the Bank shall be made in seven installments. The first, second, third and fourth installments of paid-in capital were paid by each member within 6 months, 18 months, 30 months and 42 months respectively from the dates of depositing the instruments of accession. The remaining three installments shall each become due successively one year from the date on which the preceding installment becomes due.

19. Paid-in Capital Receivables - continued

Note 1: - continued

The Bank established the rights to receive the initial subscribed paid-in capital of Egypt of 2,392 shares amounted to USD 239 million upon the date on which Egypt's instruments of accession are deposited. The payment of the amount of Egypt initially subscribed to the paid-in capital stock of the Bank shall be made in seven installments. The first installment of paid-in capital of Egypt was paid during the year ended December 31, 2023 and the second installment shall become due 18 months from the date of depositing the instrument of accession. The remaining five installments shall each become due successively one year from the date on which the preceding installment becomes due.

Note 2: The discounting method is applied to derive the interest to be unwound over the installment period. The balance includes an initial discount of USD 667 million (December 31, 2024: USD 667 million) less USD 610 million of accumulated unwinding interest already unwound on the paid-in capital receivables (December 31, 2024: USD 608 million) and USD 36 million of accumulated early payment impact on discounting which was credited to reserves as an equity transaction by the end of March 31, 2025 (December 31, 2024: USD 36 million).

Note 3: As at March 31, 2025, the total paid-in capital receivables that will be due within one-year amounted to an undiscounted value of USD 92 million, and that will be due after one-year amounted to an undiscounted value of USD 260 million.

20. Other Assets

	As at March 31, <u>2025</u> USD million (unaudited)	As at December <u>31, 2024</u> USD million (audited)
Swap related collateral	12	5
Others (Note 1 below)	2	2

Note 1: Others mainly include prepayment.

21. Financial Liabilities Designated at FVTPL

	As at March 31, <u>2025</u> USD million (unaudited)	As at December <u>31, 2024</u> USD million (audited)
Bonds and notes - Principal	14,291	12,695
- Interest payable	219	166
- Fair value adjustment	(164)	(304)
Total	<u>14,346</u>	<u>12,557</u>

In January 2025, the Bank issued a five-year RMB bond with par value of RMB 6 billion (USD 818 million equivalent) with the maturity date on January 16, 2030. The interest is paid by the Bank annually with fixed coupon rate of 1.7%.

In March 2025, the Bank issued a three-year USD note with par value of USD 1.25 billion with the maturity date on March 31, 2028. The interest is paid by the Bank annually with fixed coupon rate of 4.375%.

There has been no change in fair value of the bonds and notes attributable to changes in the Bank's credit risk for the three months ended March 31, 2025 and for the year ended December 31, 2024. The contractual principal amount to be paid at maturity in original currency are RMB 42.5 billion (December 31, 2024: RMB 39.5 billion, audited) for RMB denominated bonds, USD 7.89 billion, HKD 2.38 billion and EUR 90 million (December 31, 2024: USD 6.64 billion, HKD 2.38 billion and EUR 90 million, audited) for USD, HKD and EUR denominated notes respectively.

22. Bank borrowings

	As at March 31, <u>2025</u> USD million (unaudited)	As at December <u>31, 2024</u> USD million (audited)
Bank borrowings	<u>4,744</u>	<u>4,756</u>
Total	<u>4,744</u>	<u>4,756</u>

On January 25, 2024, the Bank utilised the bank borrowing facility and withdrew an amount of USD 2 billion with the maturity of January 25, 2027. The interest is paid by the Bank semi-annually with the rate of SOFR plus 0.70% margin.

On March 29, 2024, the Bank utilised the bank borrowing credit facility and withdrew an amount of USD 1.2 billion with maturity of March 29, 2027. The interest is paid by the Bank quarterly with the rate of SOFR plus 0.83% margin.

22. Bank borrowings - continued

On October 15, 2024, the Bank utilised the bank borrowing facility and withdrew an amount of USD 1.5 billion with maturity of October 15, 2027. The interest is paid by the Bank semi-annually with the rate of SOFR plus 0.70% margin.

All bank borrowings are unsecured and unsubordinated.

23. Bond Payables

	As at March 31, <u>2025</u> USD million (unaudited)	As at December <u>31, 2024</u> USD million (audited)
Bond payables	1,567	1,560
Total	<u>1,567</u>	<u>1,560</u>

24. Contract Liabilities

As at March 31, 2025 (unaudited)	Total shares Numbers	Total capital USD million	Callable capital USD million	Paid-in capital USD million	Paid-in capital ¹ received USD million	Paid-in capital ² outstanding USD million
Brazil	100,000	10,000	8,000	2,000	2,000	-
Russia	100,000	10,000	8,000	2,000	2,000	-
India	100,000	10,000	8,000	2,000	2,000	-
China	100,000	10,000	8,000	2,000	2,000	-
South Africa	100,000	10,000	8,000	2,000	2,000	-
Bangladesh	9,420	942	754	188	94	94
UAE	5,560	556	445	111	56	55
Egypt	11,960	1,196	957	239	36	203
Total	526,940	52,694	42,156	10,538	10,186	352

As at December 31, 2024 (audited)	Total shares Numbers	Total capital USD million	Callable capital USD million	Paid-in capital USD million	Paid-in capital ¹ received USD million	Paid-in capital outstanding USD million
Brazil	100,000	10,000	8,000	2,000	2,000	-
Russia	100,000	10,000	8,000	2,000	2,000	-
India	100,000	10,000	8,000	2,000	2,000	-
China	100,000	10,000	8,000	2,000	2,000	-
South Africa	100,000	10,000	8,000	2,000	2,000	-
Bangladesh	9,420	942	754	188	66	122
UAE	5,560	556	445	111	39	72
Egypt	11,960	1,196	957	239	24	215
Total	526,940	52,694	42,156	10,538	10,129	409

- 1 Pursuant to Article 9 and attachment 2 of the Agreement each founding members' paid in capital stock is received in seven installments. Further, the paid in capital stock is received in seven installments according to annexure of the respective Board Resolutions.
2. As at March 31, 2025, the paid-in capital outstanding relating to the second installment of USD 11.9 million (unaudited) of a member country was overdue (December 31, 2024: 23.9 million audited).

27. Reserves

	As at March 31, <u>2025</u> USD million (unaudited)	As at December <u>31, 2024</u> USD million (audited)
Capital reserve (Note 1 below)	_*	_*
Revaluation reserve	7	_*
Other reserves (Note 2 below)	(21)	(23)
Total	<u>(14)</u>	<u>(23)</u>

* Less than USD half of a million

Note 1: As at March 31, 2025, the Bank has received cash contributions amounting to USD 0.30 million (unaudited) (December 31, 2024: USD 0.30 million, audited) from Russian Federation for the reimbursement of relevant payments for the ERC. The Bank recognises such cash contributions from Russian Federation as capital reserve on the basis that the contribution agreement does not include a contractual obligation of the Bank to repay cash or another financial asset, and there are no other features that would meet the definition of a financial liability.

As at March 31, 2025, the Government of India, on behalf of the Bank has paid the rent plus taxes amounting to USD 0.13 million (unaudited) (December 31, 2024: USD 0.13 million, audited) as applicable of IRO for the lease period of first two years. The Bank recognises such contributions as capital reserve on the basis that the contribution agreement does not include a contractual obligation of the Bank to repay cash or another financial asset, and there are no other features that would meet the definition of a financial liability.

Note 2: Other reserves mainly represent the difference on the present value of paid-in receivables and the nominal amounts of subscribed paid-in capital arisen from the installment payments of the subscribed paid-in capital, which is regarded as an equity transaction. The subsequent unwinding of interest on paid-in capital receivables is reclassified from retained earnings to other reserves immediately following the unwinding treatment in the relevant accounting period.

28. Commitments

(1) Capital commitments

As at March 31, 2025 and December 31, 2024, the Bank had no irrevocable capital expenditures commitment.

28. Commitments - continued

(2) Credit Commitments

	As at March 31, 2025 USD million (unaudited)	As at December 31, 2024 USD million (audited)
Letters of effectiveness signed	7,498	7,327
Total	<u>7,498</u>	<u>7,327</u>

Credit commitments represent general facility limits granted to borrowers. These credit facilities may be drawn on demand in the form of loans and advances upon the signing of the letter of effectiveness when the conditions precedent for the first drawdown have been complied with by borrowers.

29. Related Party Disclosure

In the ordinary course of business, the Bank may grant loans to a government or through a government credit guarantee arrangement, the Bank is, in accordance with IAS 24 Related Party Disclosures, exempted from the disclosure requirements in relation to related party transactions and outstanding balances, including commitments and debt instruments at FVTOCI, with:

- A government that has control or joint control of, or significant influence over, the Bank; and
- Another entity that is a related party because the same government has control or joint control of, or significant influence over, both the Bank and the other entity.

The name and relationship with member governments are disclosed below. As at March 31, 2025 and December 31, 2024, no transactions, individually or collectively with governments are considered significant to the Bank.

(1) Name and relationship

China	48	-	48
South Africa	55	10	65
Total	<u>228</u>	<u>32</u>	<u>260</u>

31. Unconsolidated Structured Entity

The Board of Governors approved the establishment of the NDB Project Preparation Fund (NDB-PPF) on January 20, 2017. The NDB-PPF, established and administered by the Bank based on Article 3 and Article 23 of the Agreement, is an unconsolidated structured entity for accounting purposes. The objective of the NDB-PPF is to help NDB achieve its purpose of promoting infrastructure and sustainable development by supporting the preparation of bankable projects to facilitate borrowing member countries to raise funds for such projects from NDB and other financial institutions. The Bank is entrusted with the administration of the NDB-PPF to fulfill its purpose. The NDB-PPF does not expose the Bank to any loss, nor does it generate significant variable interest to the extent that consolidation is required. Accordingly, the NDB-PPF is an unconsolidated structured entity for accounting purposes.

Consistent with Article 18c of the Agreement, the ordinary capital resources of the Bank and the resources of the NDB-PPF shall at all times and in all respects be held, used, committed, invested or otherwise disposed of entirely separate from each other. The NDB-PPF will be open to contributions from all its member countries. Non-member countries and international organisations/funds may also contribute to the NDB-PPF with the Board of Director's approval authorised by the Board of Governors.

As at March 31, 2025, the NDB-PPF had received contributions amounting to USD 9 million (unaudited) (December 31, 2024: USD 9 million, audited). The Bank has not earned any income from NDB-PPF for the three months ended March 31, 2025 and 2024.

32. Subsequent Events

Subsequent to March 31, 2025, USD 6 million of paid-in capital was received from a member country.

On May 19, 2025, the People's Democratic Republic of Algeria became a Borrowing Member of the Bank and its instrument of accession was deposited.

33. Approval of Condensed Financial Statements

The condensed financial statements were approved by the Management and the Board of Directors and authorised for issuance on May 30, 2025.
